I'm an LVN at the AbSSLC and came to work here 5 ½ years ago. I chose this profession and place because of the compassion I have for others and the job never gets boring. The people I serve keep me working here. I am always learning from them and how they communicate their feelings and needs. The residents are amazing people and they are why I stay at the Living Center.

I have been familiar with the Living Center all my life because my mother and grandparents worked here and I volunteered as a teenager. I began working in 1982 and worked in Recreation/Education and a Supervisor at a Workshop until 1994. In 2010 I was able to attend LVN school through the Stipend Program. I enjoy my work because of the people who live here and I know that I make a difference in their lives. I am grateful that I also have a job that provides me paid insurance and is investing in my retirement.

I began working at the Abilene State Supported Living Center approximately 5 ½ years ago. Family members and friends had told me this was a great place to work and I have found that to be true. I have the opportunity to develop relationships with the residents who inspire me to be the best I can be at my job. My co-workers have treated me like family and helped me through a difficult personal experience. When you like the people you work for (the residents) and the people you work with (staff), it makes for a good work experience.
