Blue Cross Blue Shield to Replace United Healthcare

On Sept. 1, Blue Cross and Blue Shield of Texas will replace UnitedHealthcare as the plan administrator for HealthSelect of Texas and Consumer Directed HealthSelect. This change will not affect employees enrolled in an HMO. In August, HealthSelect members will receive a Blue Cross welcome packet, new medical ID cards and an ID card from OptumRx, the plan administrator for pharmacy benefits. If your primary care physician is no longer in the network after Sept. 1, you will be notified by Blue Cross.

New website and Customer Care center

You can visit the Blue Cross Blue Shield HealthSelect website at www.bcbstx.com/hs or call toll-free at 800-252-8039, 7 a.m.-7 p.m. CDT, Monday-Friday or 9 a.m.-3 p.m. CDT, Saturday.

Participants can:

- Get general information about plan benefits and what to expect.
- Use the Provider Search Tool to find out if their current primary care physician or other providers will be in the new network after Sept. 1.
- Get help finding an in-network primary care physician or specialist if their current provider will no longer be in the network.
- Nominate a provider to be added to the HealthSelect network.

If you are in the second or third trimester of pregnancy or are receiving care for a chronic illness or an acute medical condition, you may be able to continue to receive health care services for a limited time from your current provider after Sept.1 if the provider will no longer be in the HealthSelect network. You will need to fill out and submit a Transition of Care form to Blue Cross.
