Hand Washing & Sanitizing

Proper hand washing (and sanitizing using the alcohol sanitizer) along with sanitizing high-touch surfaces on a **frequent** basis is a critical part of keeping those that live & work here safe.

Please ensure you **always** wash your hands before exiting the bathroom and then as often as possible when working with those served. Take time to ensure your handwashing is done correctly. Remember not to touch your face as this is a very easy way to spread germs to you or others!

In addition to taking care of your personal hygiene, remember to frequently wipe down all high-touch surfaces including door knobs, light switches, bathroom faucets, etc.

There truly isn't such a thing as "too clean"!

Cough and sneeze?
Elbow, please!

Always cover your
cough & sneeze!

Campus Entrance & Exit

The new checkpoint entrance on South 24th is going well. This has been a major change for those on campus and we appreciate the cooperation (and humor) that staff have shown!

A few reminders to make this process continue to run smoothly:

- The 24/7 entrance is at Lakeside @ 21st Street. 7am-3pm (Monday-Friday) you can also enter using the ES 27th Street entrance at Centennial Park.
- The 24/7 Exit is 24th Street to Maple. This is **EXIT ONLY** except for delivery trucks.
- Dim your lights as you approach the checkpoint (parking lights only)
- Please turn down your radio as you approach the checkpoint, even if playing good country music.
- Have you badge **out and ready to show**. Ensure you have a parking sticker properly affixed on the passenger side of the windshield.

- If someone brings you to work, they must drop you off at the checkpoint – they cannot take you directly to your home/department. Transportation is providing shuttle service for us and this week looks to be great for walking!
- Deliveries (food, etc.) to the campus are prohibited.
- Please leave at least 30 minutes earlier than normal, especially for major shift changes.
