Calling in Sick

- If you are calling in for any kind of illness, you **MUST** call the Nursing Hotline **FIRST**. If you or anyone in your household is tested for COVID-19 you must call the Nursing Hotline immediately. You can reach this line by dialing **INFO (x4636)** from any campus phone or by calling **692-4053 x4636** from off-campus.
- Please watch for calls from the Hotline after you leave a message! The call will come from a "795-3xxx" number** or a Cell Phone number you likely don't know. Nursing **will** return your call but many times they do not get an answer and/or your voicemail is not setup.
- You must report being tested for COVID-19 (and then report your results if applicable) immediately to the Nursing hotline. Failure to do so will result in disciplinary action.**

Three Reasons Why You Were Given Top Priority to Be Vaccinated Against COVID-19

- 1 You are on the front lines and risk being exposed to people with COVID-19 each day on the job.
- 2 Protecting you also helps protect your patients and your family, especially those who may be at higher risk for severe illness from COVID-19.
- 3 You matter. And you play an essential role in keeping your community healthy.

Lead the way!
Encourage your coworkers, patients, family and friends to get vaccinated.

Shout Outs!

Lexie Ridgeway at FCT&D is always so very helpful and accommodating. She is a treasure to know and work with.

Big kudos to **Ronda Reed** for helping to keep the ship afloat at Risk Management. She is very professional, patient, and extremely efficient. Thanks Ronda!

Last Monday I had an unfortunate little accident here at work. I would like to thank **TR, X-Ray, Dr. Chengson** and **Candice Moore** for your compassion, care and expertise. It was truly appreciated!
